# N-4700-SERIES TWO COMPONENT HYDRAULIC DRIVE — HIGH OUTPUT SHOT METER DISPENSE SYSTEM

## Ideal for Structural Foam Applications

**One 2:1 Ratio Low Mileage Demo  
Unit Available Enormous Savings!!**

## Series Features/Capabilities

- Positive piston displacement
- Single Acting shot meters 1:1 to 10:1 by volume
- Total uninterrupted mixed material capability of 238 cubic inches ( 3900 cc)
- Mixed material displacement readout via linear transducer & panel meter
- Volume & flow rate display with high & low set points
- Dispense pressures up to 3000 psi
- Viscosities up to 2 million CPS
- Nema 12 electrical control panel  
Up to 2 GPM Flow Rate
- Panel mounted 6 inch color touch screen  
For H.M.I. (human machine interface)
- Heavy duty hydraulic drive package
- Flush sensing pressure transducers
